Profile

Hello, I am Purya Behdarvandan. Middle school, I completed my high school education in Turkey. I continue to improve myself and prepare for the University at the same time I also develop myself in Music (Guitar, Setar, Piano), Sports (Powerlifting) and Developer (Front-end Back-end). To conduct interdisciplinary studies It has given me different perspectives, dialectical and analytical thinking as well as rapid adaptation and rapid learning. I describe myself as someone who's persitant and loves learning and problem solving.

Educations

I finished high school, I keep improving myself and prepare for university...

Experience

I worked as a Turkish-Persian interpreter for 1 year at the French consulate, hospital and other similar institutions. My ability to think and reason faster created an opportunity for development.

I worked as a bartender, waiter and receptionist in places like hotel bars and restaurants for 2 years. And in this way I developed my ability to communicate with people

Also, I work as a per time freelancer in fiverr and also complate some p rojects in local.
